

September 2024

Upgrades & Repairs

Since the recent installation of the **new jungle-gym and sand pit**, we have continued with important upgrade and repair needs. Completed jobs include **major repairs and waterproofing of two classrooms (photos below)**, made possible with support from Suncoast. In addition to tree-felling to improve perimeter security, we are busy with fencing and gate repair, improving the gutters and rainwater harvesting, as well as renovating the awning which provides a large outdoor covered space.

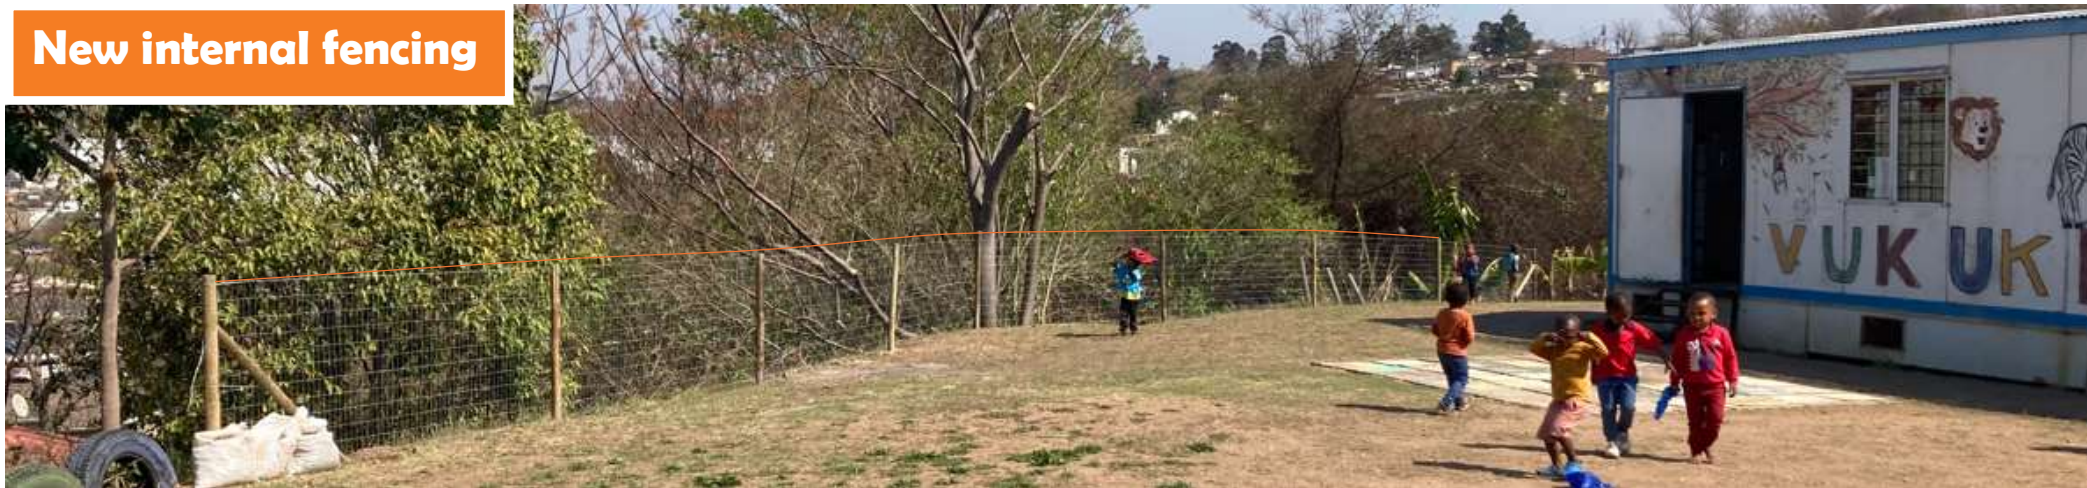

Classroom BEFORE

**DURING
&
AFTER**

New internal fencing

Awning renovation - upcoming

Some of the perimeter gate & fence upgrades

Made possible with help from iX Engineers, Key Autobody Pinetown & National Bioproducts.

Department of Health – Vitamin A & deworming
